'HAVE YOUR SAY' PROJECT

The purpose of our 'Have your say' project is to gather ideas and suggestions from club members on ways to attract greater participation and make club sailing more engaging. We are encouraging members to have '1 on 1' conversations with committee members and/or use the online form to provide feedback on various aspects of the club programme.

Maybe you have ideas for:

- Varying racing formats
- Types of racing
- Developing competitive racing skills for racing in national and international events
- Increasing membership
- Managing the needs of those focused on technical competitive racing and those who prefer something less 'full on' like social racing
- Developing knowledge and skills around Blokart racing rules
- Providing coaching sessions / learning how to sail effectively in a variety of wind conditions.
- Developing skills in setting up and tuning a kart
- Other ideas.....

[An online feedback form is available using this link](#) we'd love to hear from you through the online form or in person.

All ideas and suggestions will be listened to and considered by the committee.
